PRODUCT LOGOS
CompTIA product logos are always used in the provided form. The logos are never altered nor distorted. To ensure logos are used correctly, use the provided source files.

FULL COLOR
The full-color version of the logo is the only version. Colors shouldn't be used in monotone or reversed colors. Certificaion logos can only be placed on white #FFFFF and light grey #F4F4F4. Do not place a circle shape behind the product logos.

Font: Noto Sans Semibold

CERTIFICATION LOGO USAGE

SAFE ZONE
Make sure there are no visual elements or text too close to the certification logos, reducing their prominence and integrity. The logos should be surrounded by a clear space.

MINIMUM SIZE
The legibility of the logos should never be compromised by displaying them at a size smaller than 5/8" wide. For legibility, examine the CompTIA text in the logo and see if it is hard to distinguish—indicating it is too small.

Minimum Size:
5/8˝ or .625˝ (15.875 mm)
